I HONE.

Your committee are of the opinion that the surplus will be much larger than the figures above given, from the fact that no large appropriations for bridge purposes or otherwise, are likely to made, and the current expenses of the county will be much smaller, than for the fiscal year ending 1886 Your committee would further report that, under the resolution of this Board, authorizing them to provide funds for the present necessities of the county, they have a ocured a loan of \$5,000, payable March 15th, 1887, at which time the county reve nues will be available for the paymnet of

the same. Under the existing circumstances and in view of the foregoing statement of facts, your committee (or a majority of them , deemed it unwise and unnecessary to issue any more than \$60,000 in bonds, satisfies that that amount, with the surplus f.on the tax levy, will be amply sufficient to

meet all liabilities of the county.

We would further report that the blank bonds, fifteen in number, which were no issued, were destroyed by fire in the pres ence of your committee. In all of which the concurrence of the

Board is respectfully asked C. FISCHER. JOHN P. REED, FRED W. EADES, A. T. GRIFFIN.

The following millority report of said committee was read, and on motion of upervisor Norton ordered published with the proceedings of this special session.

To the Aonorable, the Board of Super visors of La Salle County:- The undersigned members of the committee appointed to negotiate bonds, etc., not being in accord with the report of the committee filed with the county clerk, dated Jan. 4th, 1887, respectfully ask your permission to make and have placed on record the follow-ing statement of facts, together with their views as to the policy that in their judgment should be pursued in reference to the issue of the proposed bonds.

For many years it has been the practice penses and appropriations of the Board by issuing notes signed by the chairman of the same. the Board and the county treasurer, to whomsoever would advance upon them, the money as it was required. The Board exercising this assumed right of borrowing money-for there is no pretense of legality about it-has neglected for years many to

evy sufficient revenues to pay expenses The result was that at the last Septem ber session of the county Board the finance committee reported that it was advisable and necessary to submit to the electors of the county the question of bonding the county for \$75,000. This was made neces sary to give, if possible, a legal standing to the deficit which the committee then reported to be in excess of that amount.

The report of the committee was adopted The proposition we submitted, and the authority to borrow the amount of \$75,000, which was to be applied in funding the present floating indebtedness, was given to the present Board of Supervisors.

This floating indebtedness, at the September session, consisted of notes signed by the chairman of the Board and county treasurer, and special interest bearing county orders, together with interest on the same, due and to become due mostly in December, 1886, but all prior to Feb. 1st, 1887, as follows;

of the county the present fiscal year. We are now able to approximate the gross amount the county will have to provide for during any one of the three periods of tweive months mentioned above; and if from that we subtract the entire possible revenue for that time, we shall have the amount to be covered by bonds, as per following summary:

The undersigned unite in believing that the \$75,000 voted by the peoble should be issued, and then there will still be a balance to be made up from some source not known to them of \$5,183.69; to which will have to be added, probably, to meet current expenses until March next, \$5,000; making total not provided for even with the issue of \$75,000 in bonds, \$10,183.69.

Believing that any indirect method of carrying or incurring any county debt is unlawful, and that as much as possible of that which exists should be merged in the bonds voted by the people, the undersigned cannot concur in the action of the commit tee in issuing only \$60,000 in bonds and leaving from \$20,000 to \$25,000 to be leaving from \$20,000 to \$25,000 to be have been afflicted with Salt Rhum in a smuggled along as in the past at 8 per cent most serious form. We need not grumble about hard times. for, as compared with our neighbors in Europe, we produce more than any of them, averaging \$200 per annum for each man, while England's yield is \$175, France \$120, Germany \$100; while our rate of tax ation is one third that of England, one fifth that of France, and one fourth that of Germany. The enormous nobility list of Eng-land, "titled paupers," as they have been called, of Queen Victoria's realms; those fearfully rapacious monsters, large standing armies, of France, Austria, Germany and Russia, verily readily account for the oppressive taxes of those countries. Free our people from the onerous and stupidly accepted burden of high tariff robbery called "protection," and thereby encourage manufacturing by opening the markets of the world, and American skill and enterprise would easily rule the world in the industrial arts.

Wichita, Kansas, has been terribly over boomed. Thousands of mechanics and laborers attracted by flaming advertisements, are there—have no work and many can't get away. A newspaper of that city publishes a warning to persons seeking employment, to keep away from Wichita, as there are plenty of laborers and mechanics aow out of these who can't get sufficient.
